Express Merchant Funding

Does your business experience the bulk of its sales over the weekend? Want the deposits on Monday instead of Tuesday? It's easy with Clearent's Express Merchant Funding!

With typical merchant account funding, you'll wait two days to receive the deposit from your sales activity. But Clearent's Express Merchant Funding allows qualified merchants to receive their deposits on the very next business day. This gives you faster access to your cash to purchase inventory, pay bills, or make payroll.

Batch out by 11:00 p.m. EST – that's one of the latest cut off times in the industry!

Not All Next Day Funding Programs are Created Equal

Other payment processors offer next day funding, but it often comes with important limitations on your business. Clearent's Express Merchant Funding is truly unique in the industry.

- **TRUE NEXT DAY FUNDING** – Clearent gives you an actual deposit, not a memo post by your bank.
- **11:00 P.M. EST CUT OFF TIME** – Clearent's deadline is later than other processors which allows you more flexibility because you don't have to batch before receiving the bulk of your sales for the night.
- **NO PARTICULAR BANK REQUIRED** – We'll work with any bank that holds your merchant account.

What Time Does Your Business Close?

If your business stays open until 9:00 p.m. but your processor has a 6:00 p.m. cut off time for next day funding, you won't be able to take advantage of their service. It's critical that you choose a partner with a late cut off time, like Clearent, so you can make sure you get your deposit one day earlier than the standard funding cycle.

> **If your business can benefit from receiving deposits one day earlier, then Clearent's Express Merchant Funding is the answer.**
